Six steps to a better AI prompt

E
Establish the aim
Why am I asking, and what does success look like?

N
Name the perspective
Whose judgment should shape the answer?

A
Anchor in context
What must the AI know? Facts or assumptions?

B
Build the brief
What do I want back, and where should it pause?

L
Limit the scope
Who is it for, and what is off-limits?

E
Evaluate
What will I check? Then take another turn.

Match the effort to the cost of being wrong.
